

REMARKS

In order to expedite allowance and subsequent issuance of indicated allowable subject matter, all claims other than claim 59 have been cancelled without prejudice.

The Examiner has objected to the new drawing as being labeled a Replacement Sheet. It is appreciated that the new drawing should have been labeled a New Sheet. However, in view of the cancellation of the indicated claims, the drawing is no longer required to better illustrate previously claimed subject matter. Therefore, Fig. 3A has been deleted from the case.

Likewise, while the applicant believes that the prior amendment to the Specification introduced no new matter, such amendment is not required to provide any written description support for claim 59, as such claim was indicated allowable prior to the previous amendment. Therefore, the language at issue has been cancelled from the Specification to obviate the objection.

In light of the above, it is submitted that the case is in condition for allowance. Should any issues remain outstanding, the Examiner is invited to call the undersigned attorney of record so that the case may proceed expeditiously to allowance.

Respectfully submitted,

/David S. Jacobson/
